

JPS SYSTEM

For horizontal layout - invisible fixing system (cassettes) on clips

Principle

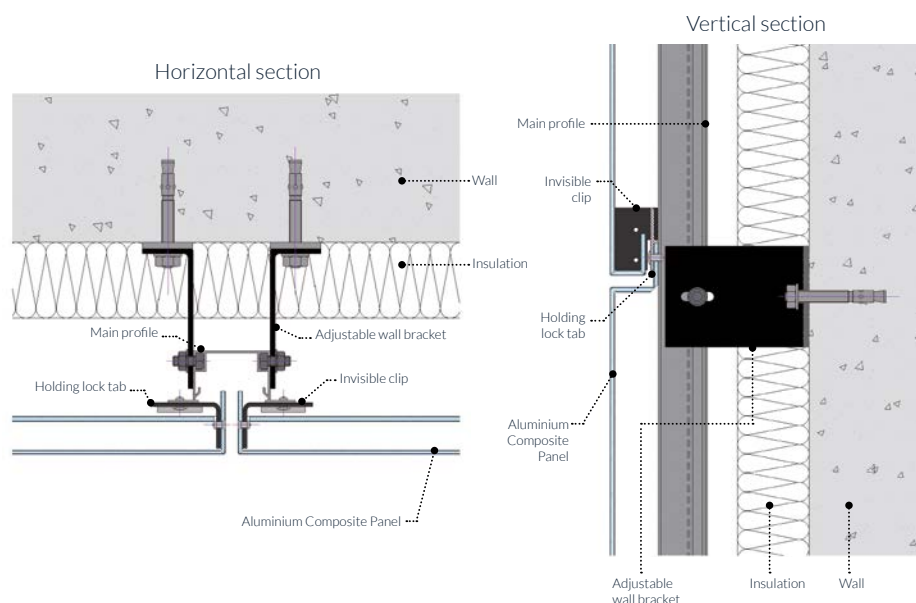

Rainscreen cladding system using interlocking on clips with invisible fixings.

Applications

Horizontal layout with straight-line forms.

Benefits

- Invisible fixings
- Quick installation using interlocking
- Cost-effective solution without horizontal profiles
- Locking at the top of cassette, no visible fixings in the recessed joints
- Oversize cassettes (up to 4 to 6 meters) available

Installation

- Fix vertical main profile at each hollow seal
- Install cassettes by interlocking with attachment to the vertical top-hats profiles
- Lock at the top of the cassette

Our Offer

- Ready-to-use cassettes
- Framework profiles supplied
