

ECOSTA ALU COMPOSITE

Fashionable and customisable, for a lightweight facade

ECOSTA ALU COMPOSITE combines a fashionable aluminium composite finish with the properties of an infill element. It is customisable and available with a range of effects: naturally elegant aluminium, metallic effect, wood or mineral look and colours that change with the light. For highly modern facades.

Applications

New building

Renovation

Buildings: tertiary, residential, education, hotels, leisure, offices, healthcare, retail, public-access buildings and more. For new projects or renovations.

Installation

ECOSTA ALU COMPOSITE can be added to traditional curtain wall horizontal frameworks, vertical frameworks and traditional set up.

Benefits

- Durable
- Easy to install with minimal maintenance
- Endless choice of colours to answer architectural wishes
