

ECOSTA FIBRE CEMENT

The authenticity of a mineral composite material

Facade panels with a fibre cement finish, a natural material that creates a pure envelope around the facade. Silky, fibrous or granular feel, matt finish all topped off with elegant colours.

Applications

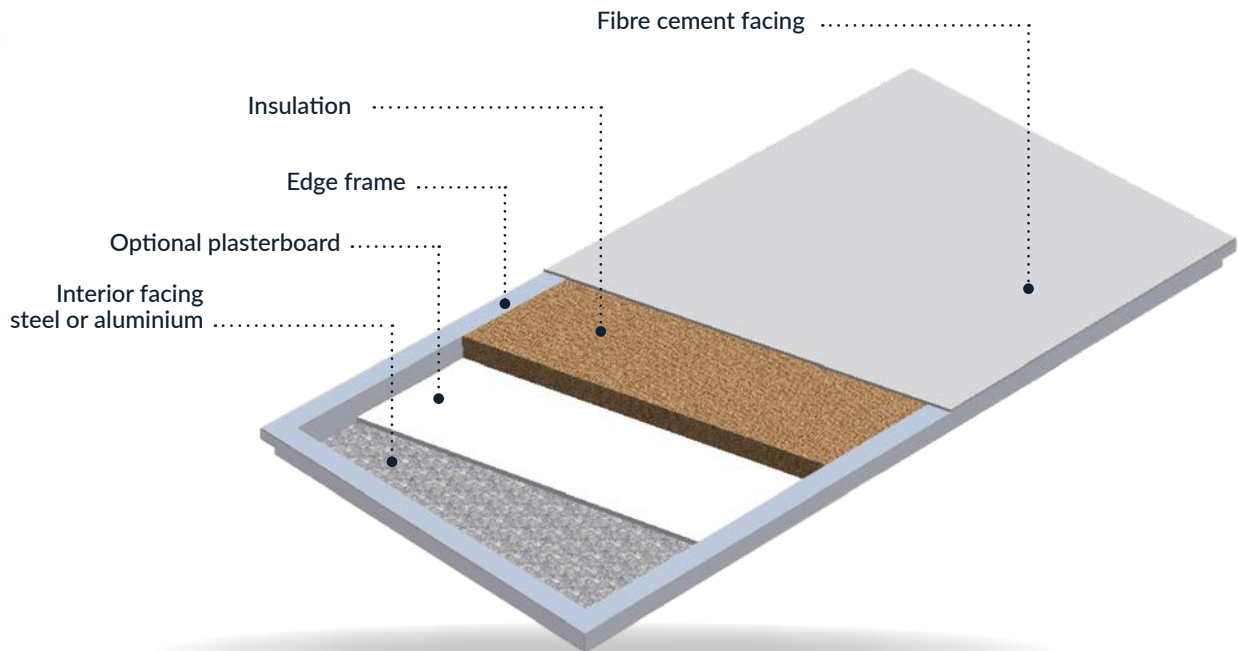

New builds

Renovation work

Buildings: tertiary, residential, education, hotels, leisure, offices, healthcare, retail, public-access buildings and more.

Installation

ECOSTA Fibres Cement can be added to 4-sided rebate traditional curtain wall and traditional joinery.

Benefits

- Easy to install with minimal maintenance
- Durable and robust
- Off-site manufacture for quick assembly
