

ECOSTA SHEET METAL

Aluminium or steel for contemporary facades

ECOSTA SHEET METAL is available in an aluminium finish: unlimited choice of colours (RAL and NCS colour charts) with the option of adding material effects. Untreated, anodised or painted finish with satin or gloss finish.

In a steel finish: ultra-resistant, untreated or satin look, ideal when there is a fire risk.

Applications

New building

Renovation

Buildings: tertiary, residential, education, hotels, leisure, offices, healthcare, retail, public-access buildings and more.

Installation

ECOSTA SHEET METAL can be added to traditional curtain wall horizontal frameworks, vertical frameworks and traditional joinery. **ECOSTA SHEET METAL** is also adapted to 4-sided system.

Benefits

- Flatness due to edge frame on large panels
- Endless choice of colours to answer architectural wishes
- Off-site manufacture for quick assembly
