

VECOSTA

The completely smooth facade with no visible fixings

Structural Silicone Glazing (SSG) facade panel. **VECOSTA** infill elements can be used to create a unified look between the opaque sections and the vision area or a counterpoint (e.g. contrasting colour). **VECOSTA** has been designed to be used with the main SSG systems on the market (TECHNAL, SCHUCO, WICONA, etc.).

VECOSTA provides excellent acoustic performance (between RW 45 and RW 49). A real asset for technically advanced and design-focused facades.

Applications

New building

Renovation

Buildings: tertiary, residential, education, hotels, leisure, offices, healthcare, retail, public-access buildings and more.

Installation

VECOSTA can be added to TOGGLE systems, cramp-iron systems and SSG curtain walls.

Benefits

- Aesthetically pleasing, architecturally, sophisticated solutions
- Off site production with many quality controls ensure high quality
- Ready to install panels under warranty
